

## Fact Sheet – Actinic Order Manager

Actinic Order Manager is a self contained order download and fulfilment application for merchants who wish to control their order processing but prefer to leave the site maintenance with their designer. PC based with a Windows style user interface and comprehensive on-screen help, Actinic Order Manager is an easy to use order processing solution.

### Simple Set Up

- Import a store snapshot file that has been exported from Actinic Developer
- Single purchase licence per Actinic store

### Order Processing

- Retrieve and decrypt orders from an Actinic store
- View and edit order details
- Produce packing lists and invoices to fulfil the orders
- Maintain a payment history for each order
- Create and send emails informing customers when their order has been shipped
- Back ordering facility to manage out of stock products
- Manage the email history of an order
- Track buying patterns with a set of sales analysis reports
- Export orders as a set of comma-separated (CSV) spreadsheet files
- Prompted backup and restore capabilities

### Minimum System Requirements

Vendor PC:

- Pentium PC running Windows 98, 2000, ME, XP or NT4
- minimum 32MB memory, 64MB preferred
- 100MB free disk space
- recommend 65536 colour display
- Internet access
- Internet Explorer v5

Web Site:

- Set up by Actinic Developer

**Price for Actinic Order Manager £150 + VAT**
